

- Registry Rights -

Please click on the Windows button, enter in *Start Search* "regedit" and press "Enter" on your keyboard, as shown in the following picture:

(picture 1: Windows start menu)

If the User Account Control appears please click "Continue"

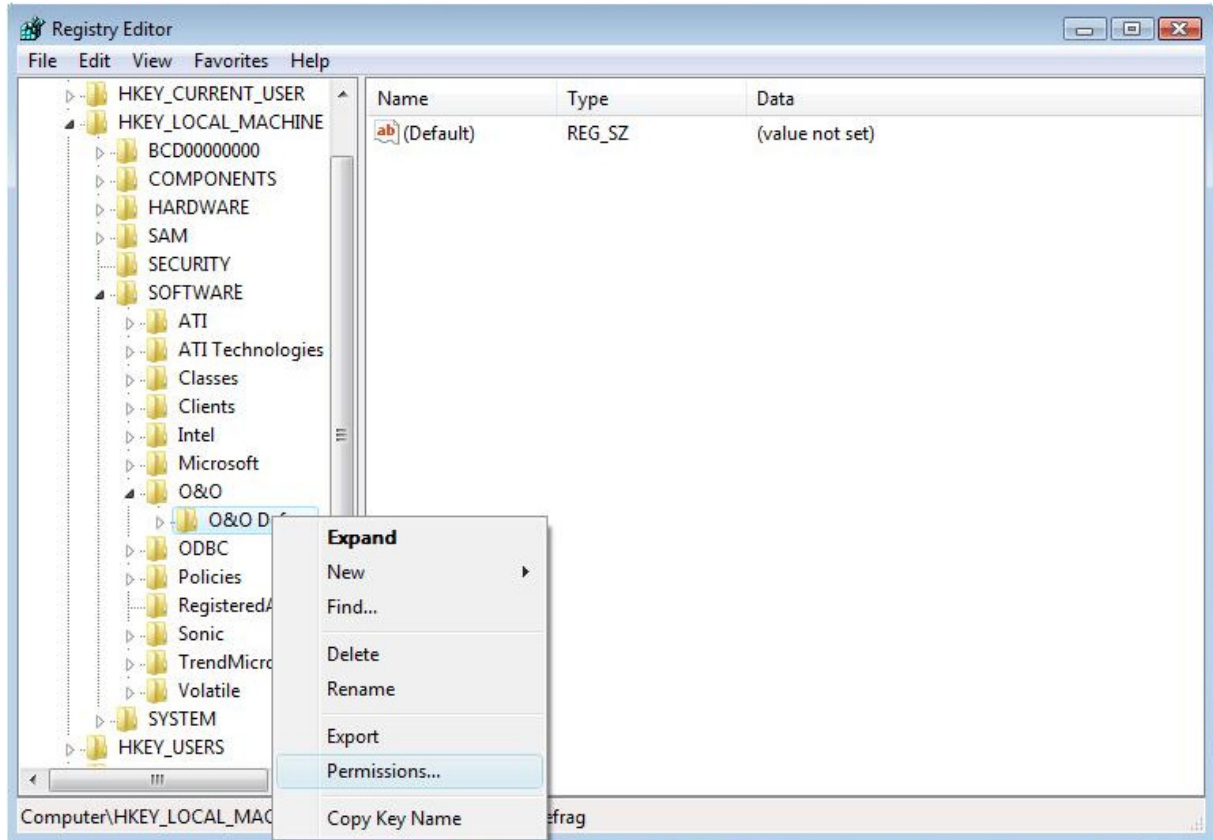

(picture 2: User Account Control)

The Windows Registry Editor will open. Search for the following key:

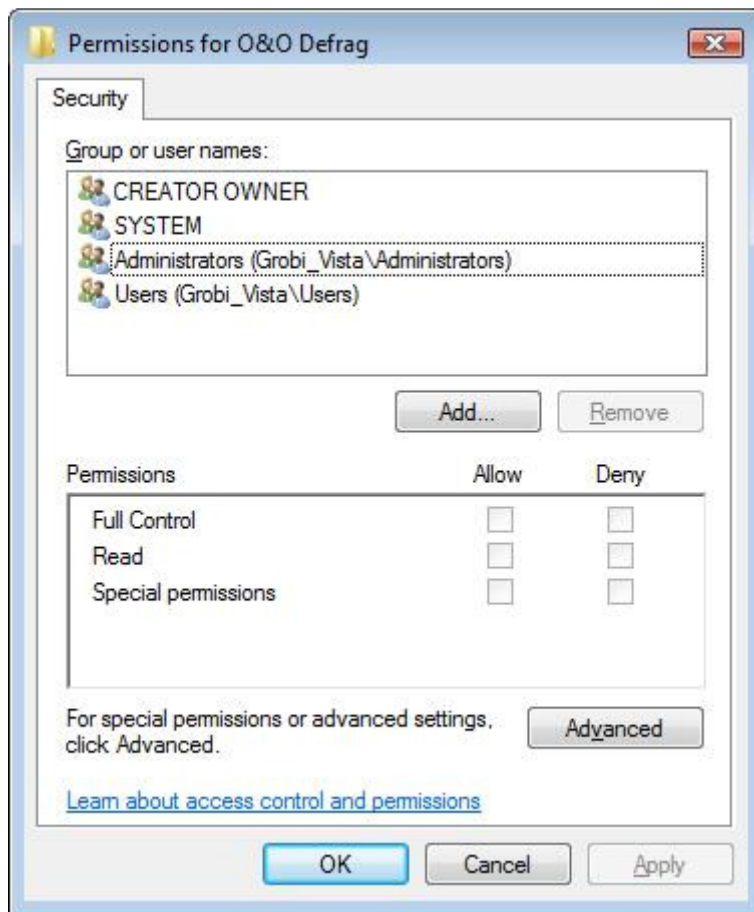

[HKEY_LOCAL_MACHINE\SOFTWARE\O&O\%O&O PRODUCT%]

Right click on the %O&O PRODUCT% key and use Permissions:

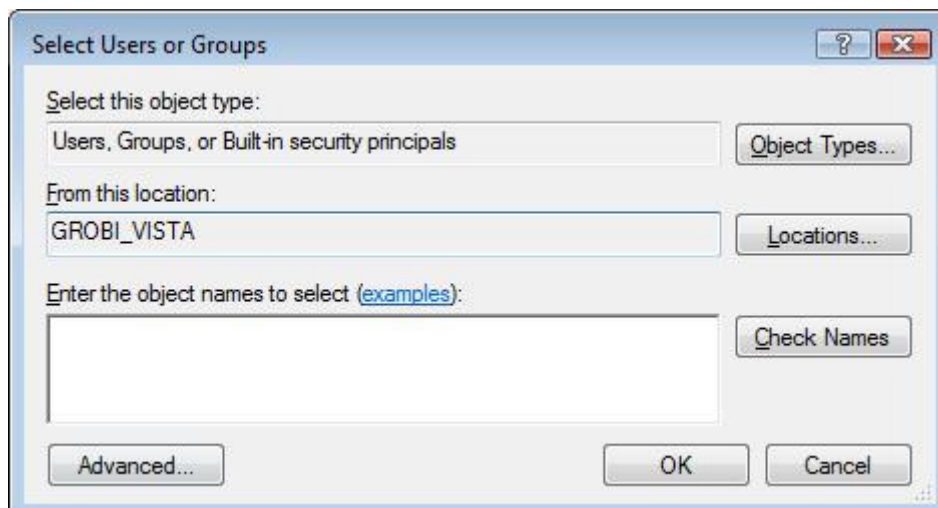

(picture 3: Registry Editor)

The following window will open:

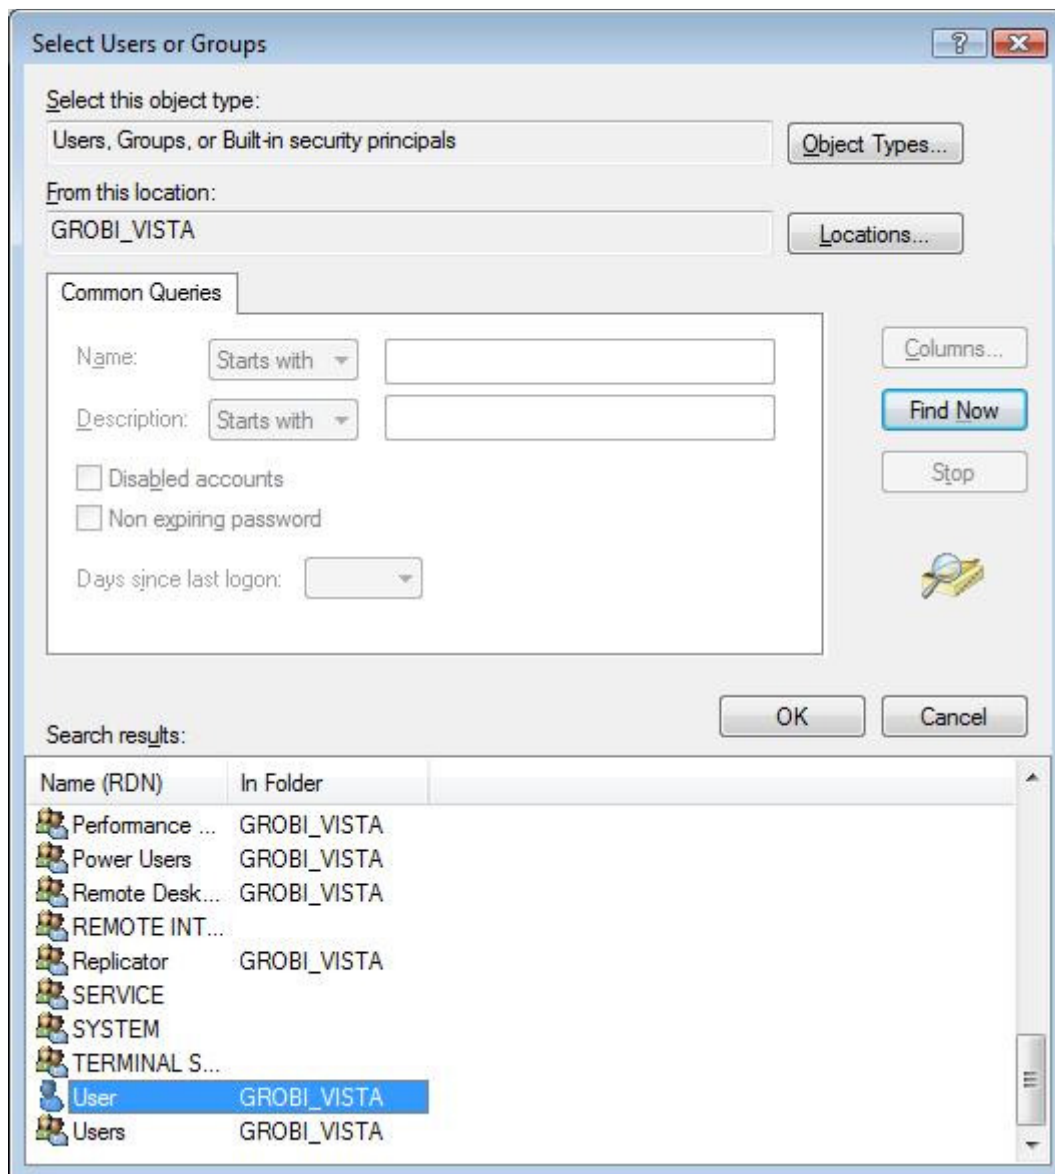

(picture 4: Permissions for O&O Defrag I)

Please click on "Add" and in the next window on "Advanced..."

(picture 5: Select Users or Groups I)

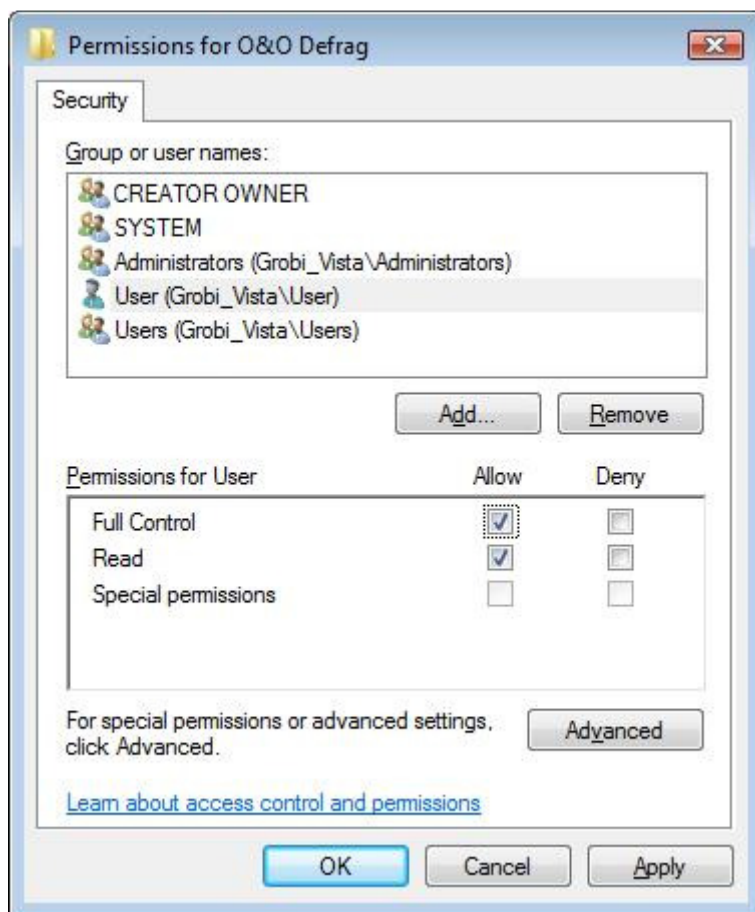

Now please click on "Find Now" and search for your username in the list:

(picture 6: Select Users or Groups II)

Select your user and click on "OK"

Click on the "new" user in the list and set Full Control:

(picture 7: Permissions for O&O Defrag II)

Press "Apply" and close the registry.

If you now register your O&O product the registration information will be saved.
