

- Registry Rights -

Please click on the Windows button and select Run as shown in the following picture:

(picture 1: Windows 2000 start menu)

Now enter the command regedt32 and press "OK"

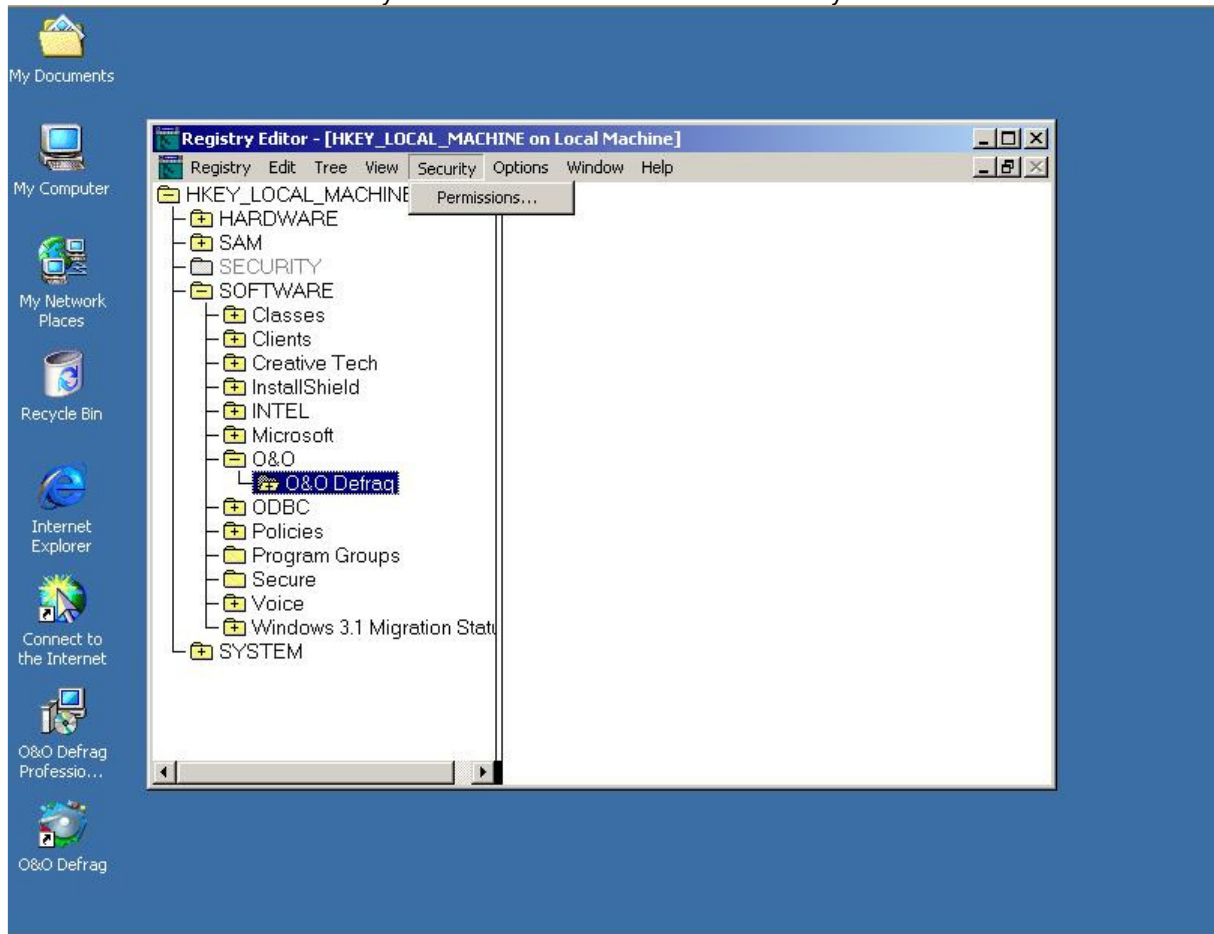

(picture 2: Windows "run")

The Windows Registration Editor will open. Search for the following key:

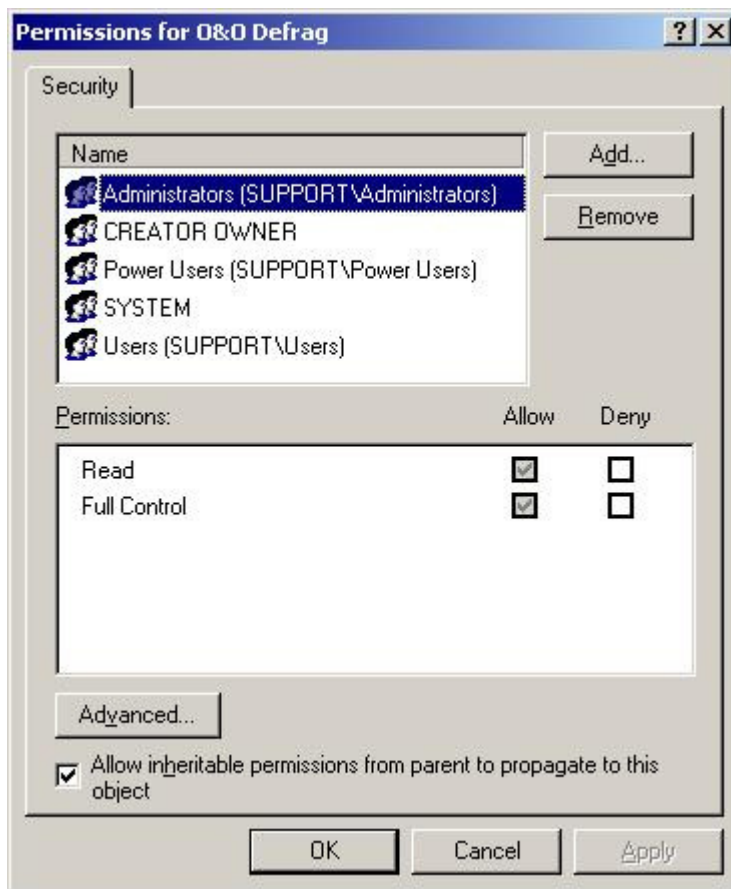

[HKEY_LOCAL_MACHINE\SOFTWARE\O&O\%O&O Product%]

Select the %O&O PRODUCT% you have installed and click on "Security" -> "Permissions...":

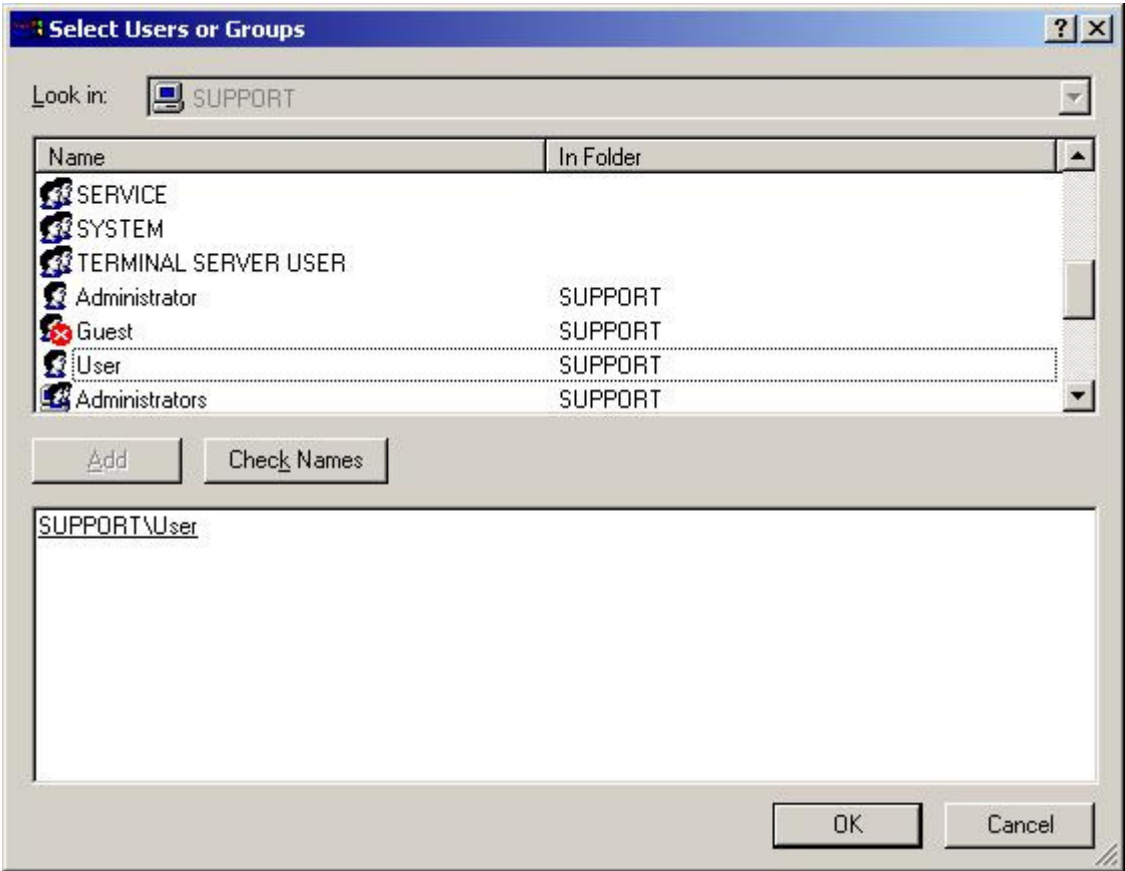

(picture 3: Registry Editor)

The following window will open:

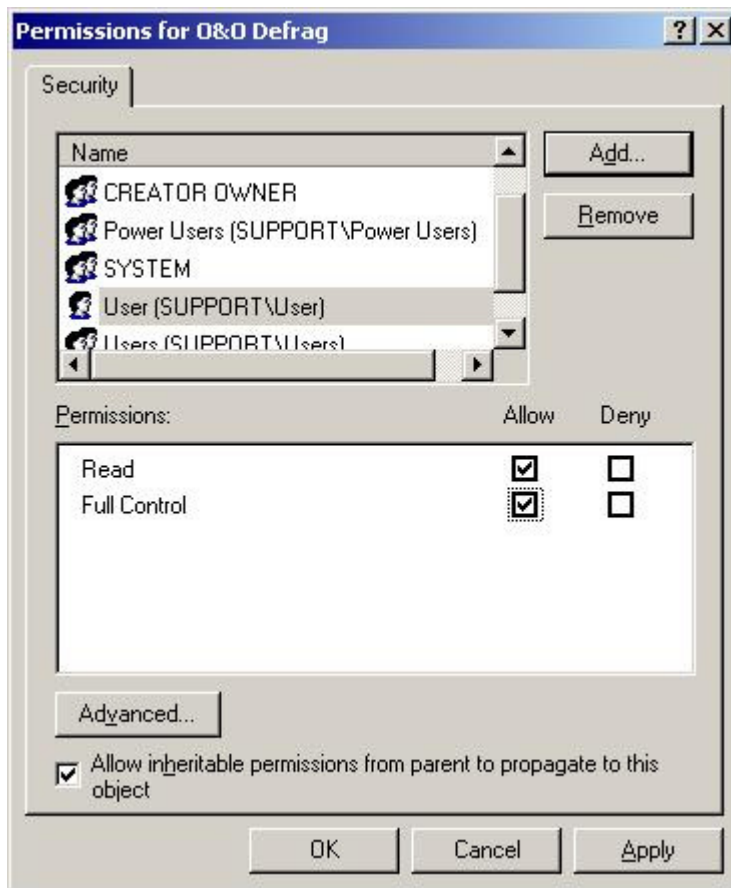

(picture 4: Permissions for O&O Defrag I)

Please click "Add", search for your username and press "OK".

(picture 5: Select Users or Groups)

Click on the "new" user in the list and set Full Control:

(picture 6: Permissions for O&O Defrag II)

Press "Apply" and close the registry.

If you now register your O&O product the registration information will be saved.
